# Solar Powered Bamboo Bathroom Scale

[www.escali.com](http://www.escali.com)

Thank you for choosing the Escali ECO180 Solar Powered Bamboo Bathroom Scale. This precision state-of-the-art measuring instrument is most accurate when weighing on a flat hard surface. This scale will not function correctly on carpet. As the electronic sensors are sensitive, avoid dropping or jarring the scale and store where it will be protected from impact.

## Operating instructions

1. Make sure your scale is exposed to either outdoor (sun) light or interior lighting. When the solar panel captures enough light the display will start to flash "READY".
2. Select your desired mode of display by pressing the **kg/st/lb** button on the base of the scale.
3. Place the scale on a solid and flat surface.
4. To activate simply stand directly onto the scale platform.
5. The scale will capture the weight, and will hold it on the display for a few seconds.
6. The scale will turn off automatically when finished.

## Additional Information

1. Make sure your scale is at room temperature, and on a stable horizontal surface free of vibration.
2. This scale is not waterproof. Do not expose to moisture.
3. As this scale is a precision instrument, it must be handled with extreme care. Avoid rough treatment, shaking and vibration.
4. Do not disassemble this scale or the warranty will be void.
5. The display value may be affected by electromagnetic disturbances such as operating near a radio. If this occurs, move the device that is causing the disturbance and turn the scale off and restart.

## Product Guarantee

Your Escali scale is guaranteed to be free of defects in materials and workmanship for a Lifetime. For full details of this guarantee please visit our website at:
